

Dear Parents of Pre-Schoolers,

Tumbulgum Public School is now taking enrolments for 2008. Choosing a school for your child is one of the most important decisions you will make.

We are proud to say that quality teaching and learning is at the forefront of student, teacher and parent thinking. Our students know what it means to be a quality learner and know that their teachers are committed to providing a high quality education for all. This emphasis on quality is delivered in a calm, caring and supportive environment that ensures that the students are happy learners and that they are able to build strong friendships with their peers.

The school is in a beautiful environment in which our students thrive. The buildings are surrounded by rainforest areas & award winning gardens that the students use extensively for their learning. Visitors regularly comment how welcoming our school is and how friendly and well mannered the children are.

Staff at Tumbulgum School are very dedicated and committed to making learning exciting for students. Because of this, our students are focused and achieve outstanding results, particularly in the state - wide Basic Skills Tests. Our teaching staff are specialists in literacy, numeracy & technology. We also have a very effective Science and Visual Arts Program.

Our parents are very involved in the school and contribute a great deal to everyday school life. Parent / school partnerships are highly valued at the school and it is these partnerships that generate a positive school image.

I invite you to come and discover what our school can provide for your child. If you would like to make enquiries about enrolment, simply contact our office manager, Sue Breckenridge to make an appointment with me.

I look forward to sharing our school's successes with you.

Vicki Tolhurst
Principal
